ELECTRICAL SAFETY QUIZ

Energy
Explorers

Can you answer the following questions about electrical safety?
Take the quiz and see how you do! See answers at the bottom of the page.

- 1) **What is the best thing to do if you are playing outside and you get caught in a lightning storm?**
 - A. Go inside and wait by the window to see when it stops so you can go back out.
 - B. Go inside, get in your bed and hide under your covers.
 - C. Go inside and find a safe place away from doors and windows.

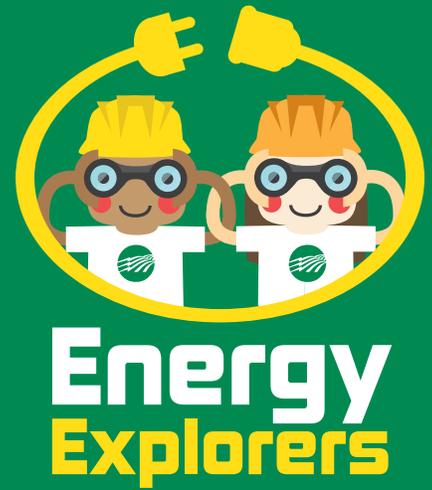

- 2) **What should you do if your toast gets stuck in the toaster?**
 - A. Pick up the toaster and turn it upside down so the toast will fall out.
 - B. Unplug your toaster and use something wooden to remove the toast.
 - C. Grab a fork or knife to help you get it out.

- 3) **Your little sister wants to fly her kite in the front yard but there are power lines out there. What should you do?**
 - A. Watch her carefully and make sure she does not get too close to the power lines.
 - B. Tell her that she cannot fly her kite at all in the front yard, and find a better place to fly the kite.
 - C. Help her fly her kite really high to avoid the power lines.

- 4) **True or False: You are less likely to experience an electrical shock if you touch an electrical object with wet hands.**
 - A. True
 - B. False

Answers:
1) C. 2) B. 3) B. 4) False
